

MUHAMMAD FARHAN MUKHTAR BUTT

Computer Science Student | App & Web Developer | ML & AI Enthusiast

Gujrat, Pakistan | +92 311 7769001 | farhanbutt2402@gmail.com | [linkedin.com/in/farhan-butt-b95ab7337](https://www.linkedin.com/in/farhan-butt-b95ab7337)

OBJECTIVE

CS undergraduate at University of Gujrat with a passion for App and Web Development. Adept at building real-world solutions in ML, cross-platform apps, and web tech. Seeking an internship to grow and contribute to an innovative team.

EDUCATION

University of Gujrat

BS Computer Science

2023 – 2027 (Expected)

CGPA: 3.33 / 4.00 (5th Semester)

Completed 6th Semester (result yet to come)

TECHNICAL SKILLS

Programming Languages

Dart • Python • C++ • JavaScript • HTML5
• CSS3

Frameworks & Tools

Flutter • Firebase • MongoDB • Android
Studio • VS Code • Git

ML Algorithms

KNN • Naïve Bayes • SVM • Neural
Networks

Areas of Interest

App Development • Web Development
• Machine Learning

SOFT SKILLS

- ▶ Team Collaboration & Pair Programming
- ▶ Problem-Solving & Analytical Thinking
- ▶ Time Management & Meeting Deadlines
- ▶ Adaptability & Fast Learning

CERTIFICATIONS

Complete Web Development Bootcamp

Udemy • HTML, CSS & JavaScript

Google AI + Google AI Essentials

Coursera

Google People Management Essentials

Coursera

ACADEMIC PROJECTS

AI-Based Cyber Attack Detection System

Machine Learning • Cybersecurity

- ▶ Designed and trained a multi-algorithm ML pipeline using KNN, Naïve Bayes, SVM, and Neural Networks to classify network traffic into DoS, DDoS, Phishing, and Normal categories.
- ▶ Preprocessed and analysed real-world network datasets, evaluated and compared model performance metrics to identify the best classifier for cybersecurity deployment.
- ▶ Demonstrated practical cybersecurity application by linking ML predictions to real-world attack patterns and threat vectors.

Stack: Python • Scikit-learn • Pandas • NumPy • Matplotlib

Cross-Platform Expense Tracker App

Flutter • Firebase • Mobile App Development

- ▶ Built a full CRUD cross-platform mobile app with category-wise spending analytics, real-time search with advanced filters, and a budget alert notification system.
- ▶ Integrated Firebase Cloud Firestore for real-time data synchronisation and Firebase Authentication for secure, seamless user login and account management.
- ▶ Designed a clean, intuitive UI in Flutter with fully responsive layouts targeting both Android and iOS platforms from a single codebase.

Stack: Dart • Flutter • Firebase Firestore • Firebase Auth • Android Studio

UOG Official Website Redesign

Web Development • UI/UX Improvement

- ▶ Audited and redesigned multiple pages of the University of Gujrat official website, identifying and correcting structural, visual, and content-level mistakes.
- ▶ Improved navigation flow, layout consistency, and overall user experience resulting in a cleaner, more professional web presence.
- ▶ Applied best practices in semantic HTML and modern CSS to improve code readability, accessibility, and long-term maintainability.

Stack: HTML5 • CSS3 • JavaScript

WHAT I AM LOOKING FOR

- ▶ An internship focused on mobile app development (Flutter/Dart) or full-stack web development where I can contribute to real products and learn from experienced engineers.
- ▶ Opportunities to work with modern tech stacks, participate in agile workflows, contribute to code reviews, and solve real-world user problems.
- ▶ A collaborative, growth-oriented environment that values initiative, continuous learning, and building impactful products.

ACTIVITIES

- ▶ Active in multiple university societies — tech workshops, events & community drives
- ▶ Participated in university coding competitions, demonstrating competitive problem-solving
- Led and contributed to semester-long team projects: planning, code reviews & delivery

Open to Internships in App & Web Development • Available Immediately
